## SAMHLJÓÐAR

Hérna erum við að þjálfra orðaforða, lestur, málþroska, fínhreyfingar, samhljóða/sérhljóða og að tengja orð við mynd.

Nemendur lesa orðin og finna rétta mynd. Þeir lita myndina og merkja við orðið, t.d. með því að lita yfir það.

Því næst lesa þeir næsta orð og svo koll af kolli. Ef þeir vita ekki hvað orðið þýðir þá er hægt að nota útilokunaraðferðina til að finna rétta mynd.

Það er líka hægt að nota blöðin sem bingóspil, nemendur hafa þá annaðhvort orðin eða myndirnar fyrir framan sig, og bingóstjórinn dregur orð/mynd og sá sem er með myndina/orðið litar yfir myndina eða orðið hjá sér.

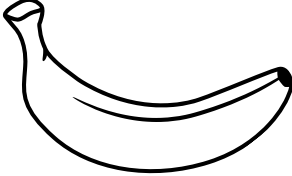

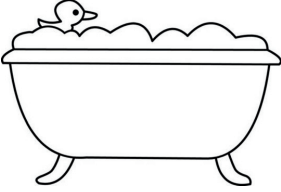

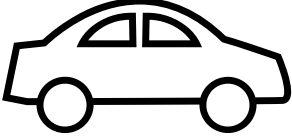

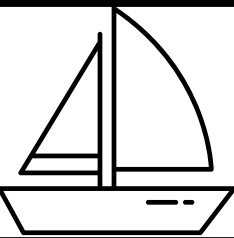

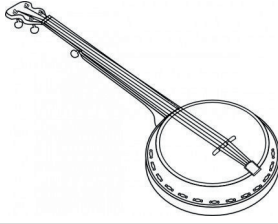

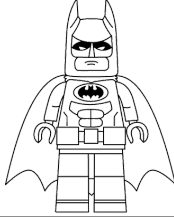

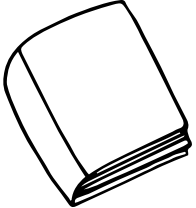

Verkefnið hentar einnig fyrir börn sem geta ekki lesið sjálf, en þá er orðið lesið fyrir þau og þau finna rétt mynd og lita hana.
