

ORÐALESTIN

Nemandi skrifar orð í fyrsta lestarvagninn, svo finnur hann orð sem byrjar á síðasta staf fyrsta orðsins og svo koll af kolli.

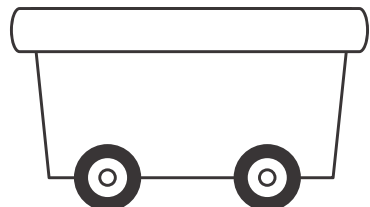

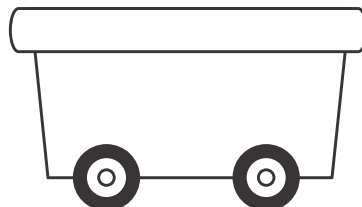

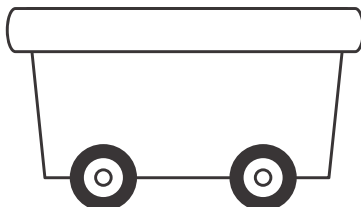

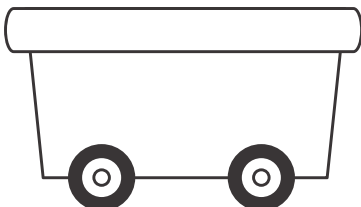

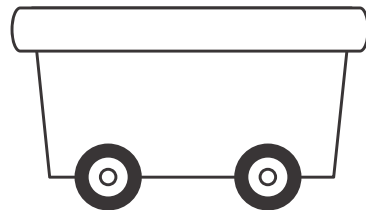

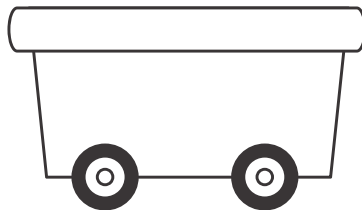

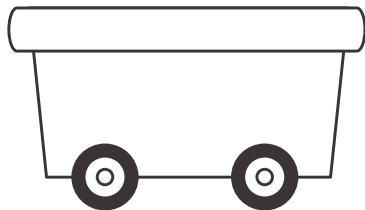

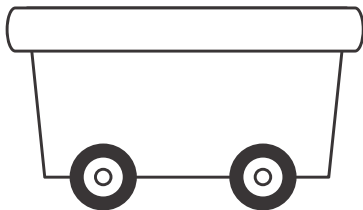

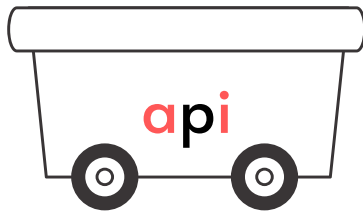

Í skjalinu eru bæði blöð þar sem eru sýnidæmi og tómir vagnar.

Það er annaðhvort hægt að hafa þrjár ólíkar orðalestir á einu blaði eða hafa eina langa þar sem allir vagnarnir tengjast.

Einnig getur verið skemmtilegt að klippa út vagna fyrir hvern nemanda bekkjarins, hver nemandi skrifar eitt orð sem passar við orðið fyrir framan og svo er orðalestin hengd upp á vegg.
